

BLIND FOLD ACTIVITY

What you need

At least two people, access to images, a stopwatch and a blind fold (if you do not have one, you can simply close your eyes - no peeking!)

Rules

Once your friend is blind-folded select an image.

Click [here](#) to access images from the exhibition *Dream Realised*

Describe the artwork to your friend and really think about the words that you are using to describe the work (try and not be too obvious)

Use a stopwatch to time yourself – 2 minutes is enough.

Before person 2 takes off their blindfold, they have to think about the image that was described to them. Person 2 needs to hold that image in their minds for 20 secs before opening their eyes.

Is the image in your mind similar to the one explained?
What was the same and what is different? Discuss

Now swap roles

Do you need help?

Here are some things to think about if you get stuck – think about the colours, the darkness and lightness, is the work big or small, portrait or landscape, are there straight lines or curvy lines, realistic or abstract etc
